

Directlink

Ring fencing

Waiver Register

1 July 2026

Waiver Register

Directlink is a Transmission Network Service Provider (TNSP) and provides transmission services under the National Electricity Law (NEL). Directlink must therefore comply with the Australian Energy Regulator's (AER) Ring-fencing Guideline for Electricity Transmission (Version 5) that was published by the AER on 24 February 2025 (the Guideline).

Clause 5.7 of the Guideline requires a TNSP to establish and maintain a register of all waivers (including any variation of a waiver) granted to the TNSP by the AER and make that register publicly available. The register must include:

- the description of the conduct to which the waiver or interim waiver applies; and
- the terms and conditions of the waiver or interim waiver.

This document is Directlink's waiver register in accordance with clause 5.7 of the Guideline.

Description of the conduct to which the waiver or interim waiver applies	Terms and conditions of the waiver or interim waiver

This register is currently blank.

If you have any questions about this register, please email ringfencing@apa.com.au.
