

Directlink

Ring fencing

Information Register

1 July 2026

Information Register

Directlink is a Transmission Network Service Provider (TNSP) and provides transmission services under the National Electricity Law (NEL). Directlink must therefore comply with the Australian Energy Regulator's (AER) Ring-fencing Guideline for Electricity Transmission (Version 5) that was published by the AER on 24 February 2025 (Guideline).

Clause 4.2.4 of the Guideline requires a TNSP to establish and maintain a register of:

- related electricity service providers and other legal entities who have requested access to ring fenced information (see clause 4.2.4(a) of the Guideline); and
- identify the kind of information requested and describe the information in sufficient detail to enable other legal entities to make an informed decision about whether to request that kind of information (see clause 4.2.4(b) of the Guideline)

This document is Directlink's information register in accordance with clause 4.2.4 of the Guideline.

Legal entity that requested access to ring-fenced information	Description of the information requested

This register is currently blank.

If you wish to request ring fenced information from Directlink, please refer to Directlink's Information Sharing Protocol or email ringfencing@apa.com.au.
